Sweet Orange Essential Oil	Citrus aurantium dulcis (Orange) Peel Oil	0,1
Chamomile Essential Oil	Anthemis nobilis Flower Oil	0,1

#### Procedure

1. Mix the ingredients of Phase A until homogenous.

#### Raw materials from ICSC

##### Grapeseed Oil

*Vitis vinifera seed oil*

Grapeseed oil is rich in vitamins C, D and E, as well as omega-6 and omega-3 fatty acids, dramatically improving the look, texture and health of skin. It is safe to use on all skin types including skin experiencing inflammation. Grapeseed oil moisturizes the skin without leaving a greasy residue thanks to the light nature of the oil.

##### Hazelnut Oil

*Corylus Avellana (Hazelnut) Seed Oil*

Hazelnut is rich in linoleic acids, which visibly clean and shrink pores. It provides relief for various skin problems, particularly those of sensitive and dry skin. This very nourishing oil is absorbed slowly, making it a true blessing for the skin, especially in cold weather.

##### CBD Oil 1

*Cannabis sativa seed oil, Cannabis sativa flower/leaf/stem extract*

CBD oil has anti-acne and anti-inflammatory properties, making it very suitable for relieving inflammatory skin conditions such as eczema, psoriasis and acne.

##### Jojoba Oil

*Simmondsia Chinensis Seed*

A liquid wax with softening, protecting and moisturise-retaining properties. Suitable for all skin types. Jojoba oil is abundant in important vitamins and minerals, including Vitamins E and B-complex, zinc, copper, selenium, chromium and iodine. It restores the natural balance of the skin by bringing in moisture and hydration. Jojoba oil is antibacterial, anti-inflammatory and non-comedogenic.

##### Danox R-3204

*Helianthus annuus seed oil, Rosmarinus officinalis leaf extract*

An oil solution of natural antioxidants extracted from best quality dry leaves of Rosemary without its characteristic odor. It can be used for extending the shelf life of natural and organic products.
