DEA: Airless Packaging in Glass

Baralan

www.baralan.com/en/products/dea.html

Baralan's DEA, airless packaging in glass, marries quality through functionality and sustainability. The DEA series is the first airless system where the product is in contact with glass. DEA is available in two versions: classic and premium, both of which allow for single-use or refillable solutions of the glass container.

Absorptometer-C

C. W. Brabender Instruments, Inc.

www.cwbrabender.com/en/chemical/products/extrusion/miscellaneous/absorptometer-c/

The Absorptometer-C determines oil absorption in compliance with ASTM D 2414, as well as ASTM D 3493, including new procedures B and C (carbon black), and with ASTM D 6854 (silica).

Vegetarian Omega 3

International Cosmetics Science Centre A/S Denmark

<https://icsc.dk/icsc/beauty-inside-and-outside/>

For the beauty inside and outside trend, ICSC has introduced vegetarian omega 3 in oral grade nutridan and for topical application Danomega-3. Using both products together will correct omega-6/omega-3 ratio in the body and slow the rate of omega-6 fatty acid conversion to potent inflammatory mediators, thus improving well-aging.

Ashwagandha 5404ST

Bio-Botanica

<http://www.bio-botanica.com/>

Ashwagandha 5404ST (INCI: *Withania somnifera* root extract) can be formulated in products intended to protect and improve the skin's complexion. Ashwagandha has anti-stress properties to help defend against acne-inducing stress hormones and can clean impurities in pores. It also can be formulated into anti-aging cosmetics for its ability to moisturize, protect and calm the skin.
